

family support project

home adaptation

Objectives

- Live safely with all the comforts you need
- Maintain independence in your home

Budget

From €3,500 to €80,000 depending on the project.

Duration

All year

Description

Types of projects co-financed :

- Wall-mounted patient lift (+/- €3,000)
- Handrails (€3,500)
- Motorized garage door (€4,000)
- Rail-mounted patient lift (€600)
- Exterior accessibility work: wheelchair access ramp (€10,000)
- Outdoor accessibility work: paving for parking and housing access (€10,000)
- Indoor accessibility work: widening and installation of a motorized entrance door (€10,000)
- Bathroom adaptation (€15,000)
- Lifting platform (€35,000)

Impacts

People with the disease can live in a safe and secure environment that is adapted to their needs. Housing that is adapted to disability promotes independent living.
